MEMORANDUM FOR: JANIS Contributors

Subject: German Topographic Studies Available for JANIS 40.

1. Enclosed is a preliminary list of German Topographic Intelligence Studies covering the area of JANIS 40. Unless otherwise noted, all the studies listed are available for use at the Reference Section of the Map Library, Department of State, Washington Auditorium, 19th and E Streets, N. W.

2. The studies listed deal with the whole area, and provide evaluated information probably as complete as a JANIS. Additional material, however, is arriving in Washington daily and a large library will be set up in the Pentagon. In addition, Army Map Service has similar studies and maps. In general, all publications and maps with the date 1942 or earlier should be checked against later documents compiled with occupational information. Numerous corrections were made to the earlier studies for such topics as roads and railroads.
